

DID YOU KNOW?

The construction industry needs more workers at all levels of the trades, from those on the jobsites to those in the offices.

Here is the managerial outlook according to the Bureau of Labor Statistics:

Construction Managers

About **38,700** openings for construction managers are projected each year. *

 **5%**

Employment projected to grow 5 percent from 2022 to 2032, faster than the average for all occupations.

2022 Median Pay:
\$101,480 per year
\$48.79 per hour

Construction managers may have a main office but spend most of their time in a field office where they monitor projects and make decisions about construction activities.

Project Management Specialists

About **68,100** openings for project management specialists are projected each year. *

 **6%**

Employment projected to grow 6 percent from 2022 to 2032, faster than the average for all occupations.

2022 Median Pay:
\$95,370 per year
\$45.85 per hour

Project management specialists usually work in an office setting, but they occasionally travel to visit clients.

Cost Estimators

About **18,000** openings for cost estimators are projected each year. *

 **3%**

Employment projected to decline 3 percent from 2022 to 2032.

2022 Median Pay:
\$71,200 per year
\$34.23 per hour

Cost estimators work mostly in office settings, and some estimators also visit construction sites and factory assembly lines.

Many of these openings are expected to result from the need to replace workers who transfer to different occupations or exit the labor force, such as retirement.
